Expertise in operational assessments for post-acute care organizations. Jillian **teaches classes on Yearly MDS certification**.

### Program Description

As of 1 October 2023 Mass Health will migrate to PDPM, including how to make sure we have correct documentation to receive reimbursement during this transition.

We need to implement policies and procedures in July 2023 for retroactive billing.

### Objectives

Describe the transition from the MMQs-based payment system to an MDS-based payment system for Medicaid residents. Identify the what, when, and how of the transition MDS components- what creates the HIPPS code. What will determine payment and when will that occur? What to do with those MMQs nurses? Explain what we know about the change is actionable right now The nursing component of the PDPM HIPPS code will determine payment What MDSs will impact Medicaid payment. Changes to documents and documentation including sections G, GG, and the monthly licensed nursing summary. Predict and prepare

for what we think we know Medicaid rates (25 of them) to be released when? How can I anticipate the financial impact to my facility? Audit process- yes it will still exist. Understand the nature of ongoing and anticipated MDS changes and updates and Audit process (Every October expect changes) Build a timeline for readiness and preparedness for your facility. Outline for July through November. What resources exist today? What about policies and procedures Explore and discuss ongoing and additional educational opportunities.
