Expertise in operational assessments for post-acute care organizations..

Program Description

The Patient Driven Payment Model is the payment methodology used for traditional Medicare Part A residents, some managed care companies, and for some state Medicaid systems (including Massachusetts effective 10/1/23).

This session will highlight what SNF leaders need to know and monitor for financial integrity and documentation compliance.

We will discuss effective oversight of the MDS process and what data/reports exist that can be used for monitoring.

We will discuss best practice for evaluating potential admissions. We will discuss staff education that may be needed for success.

Objectives

- Understand the basics of the Patient Driven Payment Model including MDS timing and submission.
- Understand the components of PDPM and what oversight might be needed from the leadership team.
- Discuss common PDPM mistakes, how to fix them, and how to institute best practices.
- Discuss the importance of the triple check process and who should participate.
- Review the need for ongoing oversight and management of documentation and data needed in the PDPM process.
